THE

HISTORY

OF

MASTER PLAYFUL, &c.

OUR hero was a little boy, who was generally called wild, and some improperly termed him unlucky, though when you read this little book, you will find he was rather lucky; and he was not of a naughty disposition I assure you.

Little Billy, however, was rather too full of his sports, though he took care that these should never be wicked,

8 The History of Master Playful,

ed. " For, says he, it would be better even to be as rude as the bear

which was shown at the fair a few days ago, though that is not to be commended, than like the naughty bird of prey that we saw at the same place, which they called the vulture, to be always in mischief. I cannot truly say that I am as grave as Master Wisely, nor as sedate as Miss

Thoughtful;

Thoughtful; but then I think I shall not tell a falsity when I observe, that I am not so disobedient as Master Wilful, nor so wicked as his wild companion."

It happened once, however, that Master Playful, not attending to his book so much as he ought to have done, received both rebuke and correction from his Schoolmaster, who told him, that, with all his sharpness, he was a mere goose at his learning;

to The History of Master Playful,

an observation which afterwards had took an effect on his conduct, by which it appeared to have left a deep impression on his infant mind.

He knew that he was possessed of genius, which made him rather impatient of reproach; but walking into the fields the same evening, he observed an ox, a beast whose pa-

ttence has always been remarkable
"Why,

and Master Serious.

“ Why, said he, should that brute creature excel me in any good quality; I will endeavour to lay aside impatience, and to rule my own temper.”

Master Playful certainly meant to do as he had said; but a little of that disposition called wild, or thoughtless (though it was not wicked) still prevailed in his composition. After all these fine resolutions, seeing a boy who had left his jug which

should have been filled at a well,
while he went to gape at other
things, our hero put a sieve in its
room, which you may be sure the
other could not fill by any means.
However, having for some time di-
verted himself at the other's expence,
he restored the jug, applauding him-
self for his own supposed ingenuity.

But just at this time Master Za-
chariah Serious happened to meet
with him, who could not help observ-
ing on the impropriety of his beha-
viour. "I thought you had known
better, cried he, than to behave thus.
It is quite naughty to impose on any
body, and besides there is no wit in
deceiving a simpleton. The tricks
of

of wild children at best are silly, and are always equalled, if not exceeded, by those of the raven that hops yon-

der, and plays a hundred anticks, pecking at strangers, hiding what he can get, and other such mischievous tricks. Do you think it an honour to be like him?"

These words of Master Zachariah Serious were retained in the memory of Master Playful, who, from that time,

14 The History of Master Playful, time, though he was as lively as ever, took particular care never to do an action that might be even thought unlucky. This alteration in him pleased every body; his Papa and Mamma loved him better than ever, and he became almost the darling of all their acquaintance.

“What is become of your unlucky disposition, said one of his schoolfellows?” “It is buried in this urn

which

which holds my follies. I hope the same may happen to yours, answered Master Playful." And they never spoke any more to him on the subject.

When some silly boys were following and hooting a Turk, they expected

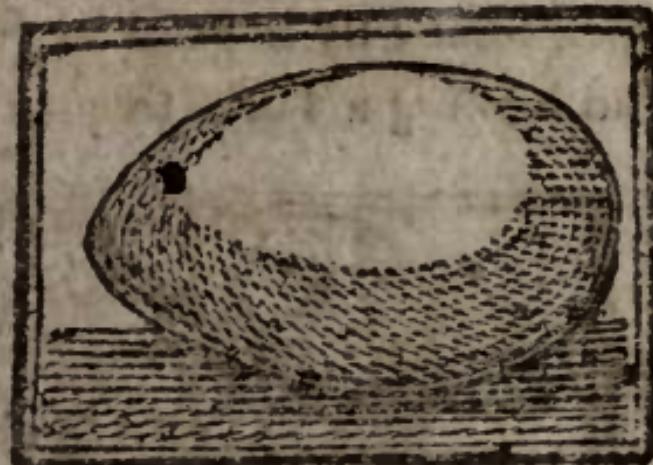

our hero to join them, but he absolutely refused, asking them what could make them behave so?

"It

"It is so difficult," said one who knew him, "to reclaim a wild, or an unlucky boy, that I wonder how it could be done!" "It is difficult," answered Master Playful, "to set an egg

upright on the little end, but I will shew you how it can be done." So he gently broke the shell, and it stood directly without spilling the contents, as he had read how it was to be done.

It

It was in this manner that Master Playful went on after, (what may be allowed to call his conversation) in shewing at once his wit and disposition to be good. In the mean time, Master Serious was his constant companion, the gravity of the one tempering the merry disposition of the other.

And these two young Masters becoming inseparable friends, used to go together to see all the fine shows, among which, Master Serious took

After

After this, a griffin was exhibited (that is the representation of one) but Master Serious properly observed, that there was not really any such thing in nature, while Master Playful seemed rather diverted with viewing the apparent double form of the animal.

He admired the eagle also, as a wonderful princely looking bird.

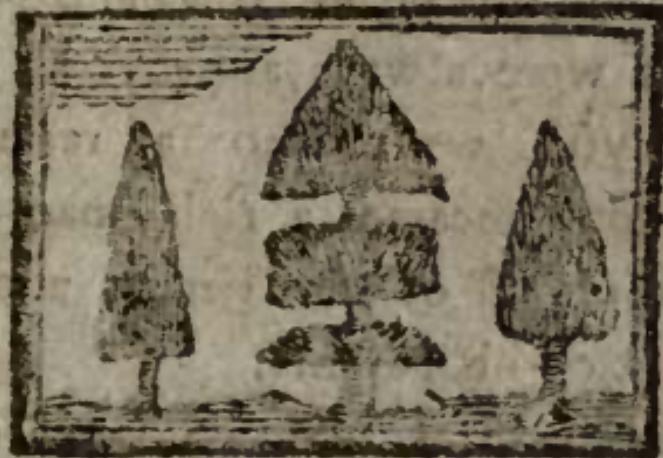

Master

Master Serious, however, reminded him, that this bird was as spacious as the vulture, and was but the tyrant of the feathered race.

From the time that Master Playful became acquainted with Master Serious, he improved in learning and good manners, and every thing went well with him. His friends sent him

to the University, where he was studious without being morose, and was not carried into any extremes; always observing, that it would be but silly to attempt at once changing a glaring tulip into a yew-tree; or to me-

transmorphe a tom-tit, or a lark, into an owl.

His sentiments in this and other matters were always approved. Master Playful went into a reputable profession, became a rich man, and was the boast of his friends, and the comfort of his parents.

Thus he was one instance of a thoughtless boy becoming a fine man, but it was because at the worst he was never wicked, and had the sense

to see his childish errors before it was too late to alter them.

If any of my young readers are inclined to trifling, it is to be hoped they will follow his example of amendment.
